

**Suggested Use:** Take a total of two capsules daily, with meals.

**Note:** Pregnant or lactating women or individuals with medical conditions should consult a physician before using.

MacularProtect contains 80 mg of zinc, a level that was found to support eye health in the AREDS clinical trial. Check with your physician prior to taking MacularProtect to ensure that this level of zinc is appropriate for you. Keep out of the reach of children.

## Supplement Facts

Serving Size 2 capsules  
Servings Per Container 30

	Amount Per Serving	% Daily Value
Vitamin A (from 15 mg of beta-carotene)	25,000 IU	500%
Vitamin C (as ascorbic acid)	750 mg	1,250%
Vitamin E (as d-alpha tocopheryl succinate and mixed tocopherols)	400 IU	1,333%
Vitamin B6 (from pyridoxine hydrochloride)	20 mg	1,000%
Folate (50% from folic acid, 50% from calcium folinate)	200 mcg	50%
Vitamin B12 (as cyanocobalamin)	100 mcg	1,667%
Zinc (from zinc oxide)	80 mg	533%
Copper (from copper oxide)	2 mg	100%
Lutein (FloraGLO®)	10 mg	†
Zeaxanthin	1 mg	†

† Daily Value not established.

**Other Ingredients:** Gelatin, Water, Silica and Magnesium Stearate.

# MacularProtect

- ▶ A powerful formulation to protect macular health
- ▶ Based on the AREDS clinical trial and other advanced scientific research
- ▶ Features a robust 10 mg of lutein and 1 mg of zeaxanthin
- ▶ Includes folate, vitamin B6 and vitamin B12 to help protect macular health
- ▶ Manufactured in NSF-certified facilities from the finest quality, bioavailable ingredients
- ▶ Formulated by doctors and nutritional scientists
- ▶ 30-day money-back guarantee

*New Omega-3 AREDS 2 formula available!*  
Add **MacularProtect® Omega-3 Companion** to obtain the omega fatty acids now being studied in the AREDS 2 clinical trial.

MacularProtect is available from eyecare practitioners or directly from ScienceBased Health.

# Powerful Protection for Macular Health

## MacularProtect® Capsules

*AREDS-based formula with lutein and B-vitamins*

## Powerful Protection for Your Sight

MacularProtect is a dietary supplement for those concerned about preserving macular health. The formula is based on the findings of the Age-Related Eye Disease Study (AREDS), and also reflects other advanced science. The AREDS trial showed that high-risk patients taking supplemental antioxidants with zinc had a significantly better chance of retaining their vision. MacularProtect delivers the antioxidant nutrients vitamins C and E, zinc, and copper that were included in AREDS. Antioxidants help combat oxidative stress, a process that can damage structures within the eye.

## Advanced Science: The Role of Lutein

Lutein and zeaxanthin are also featured in this formula, as research points to an important role for these nutrients in maintaining macular health. Concentrated in foods such as spinach, kale and corn, they form the yellow pigment of the macula lutea, the area at the center of the eye's retina where the sharpest central vision occurs.

Studies suggest that regular consumption of lutein and zeaxanthin contributes to the density of this protective macular pigment. Higher intake of these nutrients is also associated with a greater likelihood of keeping a healthy macula with advancing age. MacularProtect provides a balanced ratio of lutein and zeaxanthin that reflects how they occur in our diet.

A year-long clinical study has now reported visual improvements in participants receiving 10 mg of lutein daily, the level of lutein also provided in MacularProtect. In addition, a larger and longer investigation, AREDS 2, is currently underway to determine whether 10 mg of lutein plus zeaxanthin can help delay the onset or slow the progression of macular degeneration. The clinical trial will also assess the effects of the omega-3 fatty acids EPA and DHA, which play an important role in the layer of nerve cells in the retina.

## Emerging Science: An Important B-Vitamin Trio

MacularProtect provides ample levels of three B-vitamins: folate, vitamin B6 and vitamin B12. In addition to their importance for cardiovascular health and a healthy mental outlook, new research suggests these three B vitamins may also help protect macular health.

## New! Omega-3 AREDS 2 Formula Available

For enhanced macular protection, add **MacularProtect® Omega-3 Companion\*** to your daily regimen to obtain the nutrients being studied in the AREDS 2 clinical trial, including 1000 mg of pharmaceutical grade fish oil.

\*Available only as a bundled add-on with another MacularProtect product.
