

The ScienceBased Health[®] Optometric Advisory Board

Kenneth Daniels, O.D., F.A.A.O. is an Adjunct Assistant Clinical Professor in the Centers for International Studies and is a National Eye Institute Clinical Investigator: CLEK (Collaborative Evaluation of Keratoconus) at the Pennsylvania College of Optometry (Salus University). He was also the Director of Cornea and Contact Lens Research. As well, he enjoys a thriving private practice in with his associates. Dr. Daniels is a series editor for an ophthalmic text and contributing editor to several professional journals. In 2007, he was recognized as one of the future leaders in the area of Contact Lens and Cornea by the Review of Optometry publication. He is a nationally and internationally known lecturer and scientific presenter in the areas of contact lens, refractive surgery, cataract, dry eye, and ocular disease management and treatment and was presented the 2008 Scientific Achievement Award by his colleagues of the New Jersey Society of Optometric Physicians. Dr. Daniels is the author of "Contact Lens: Basic Bookshelf for Eyecare Practitioners" (Slack, Inc.) and has authored several book chapters including Contact Lens Correction for Presbyopia; Contact Lens Care for Post Refractive Surgery; CLIDE: Contact Lens Induced Dry Eye, all for Slack, Inc. and Contact Lens Related Complications: Atlas of Ophthalmology (Thieme 2009).

Paul Karpecki, O.D., F.A.A.O. Dr. Karpecki graduated from Indiana University and completed a fellowship in Cornea and Refractive Surgery at Hunkeler Eye Centers in affiliation with the Pennsylvania College of Optometry in 1994. He currently works at the Koffler Vision Group in Cornea services and Ocular Disease Research. He has lectured in over 400 symposia covering four continents and was invited to both the Delphi International Society at Wilmer-John's Hopkins that includes the top 25 dry eye experts in the world, and the National Eye Institute's dry eye committee. This was a task force established by the U.S. Department of Health and Human Services to better understand and treat dry eye disease in women. Dr. Karpecki is the current Chair of the Refractive Surgery Advisory Board to the AOA, Chair of the ASCRS Task Force on the Integrated Eyecare Delivery System and serves on the AOA Congress Education Committee. A noted educator and author, Dr. Karpecki presently serves on eight professional journal editorial boards.

Jim Owen, O.D., F.A.A.O., M.B.A. is a graduate of the Illinois College of Optometry and has a Masters in Business Administration from San Diego State University. He has a private practice in Encinitas California and is the Optometric Director for Alvarado Eye Associates. He is a Fellow of the American Academy of Optometry, and a member of the American Optometric Association (serving on its Refractive Surgery Committee), California Optometric Association and the San Diego Optometric Society. He is the Immediate Past President of the Optometric Council for Refractive Therapy and on the Clinical Director Advisory Committee for TLC Laser Eye Centers. Dr. Owen serves on the editorial board for Optometry Times. He participates in clinical research for refractive surgery, dry eye and keratoconus and frequently lectures at local and national optometric meetings on refractive surgery, and anterior segment disease.
