

OCULARPROTECT: SUPPORT FOR VISION AND A HEALTHY LIFE

OcularProtect is a robust multivitamin with eye-specific ingredients designed to support visual and whole body health.

Suggested Use: Take a total of four capsules daily, with meals.

Note: Pregnant or lactating women or individuals with medical conditions should consult a physician before using. Keep out of the reach of children.

Supplement Facts		
Serving Size: 4 Capsules	Servings Per Container: 30	
	Amount Per Serving	% Daily Value
Vitamin A (600 mcg RAE from retinyl palmitate, 675 mcg RAE from beta-carotene and 280 mcg RAE from mixed carotenoids)	1,555 mcg RAE	173%
Vitamin C (as ascorbic acid)	400 mg	444%
Vitamin D (as cholecalciferol)	22.5 mcg	113%
Vitamin E (from d-alpha tocopheryl succinate and mixed tocopherols)	134 mg	893%
Thiamin (vitamin B1 from thiamin hydrochloride)	9 mg	750%
Riboflavin (vitamin B2)	10 mg	769%
Niacin (from niacinamide)	30 mg NE	188%
Vitamin B6 (from pyridoxal-5-phosphate)	11.9 mg	700%
Folate (50% from folic acid, 50% from calcium folinate)	667 mcg DFE	167%
Vitamin B12 (as cyanocobalamin)	100 mcg	4,167%
Biotin	200 mcg	667%
Pantothenic Acid (from calcium pantothenate)	25 mg	500%
Calcium (98% from calcium carbonate, 2% from calcium pantothenate)	100 mg	8%
Iodine (from potassium iodide)	150 mcg	100%
Magnesium (from magnesium oxide)	100 mg	24%
Zinc (from zinc monomethionine)	25 mg	227%
Selenium (50% from selenomethionine 50% from sodium selenate)	100 mcg	182%
Copper (from copper gluconate)	2.5 mg	278%
Manganese (from manganese amino acid chelate)	5 mg	217%
Chromium (from chromium polynicotinate)	200 mcg	571%
Molybdenum (from amino acid chelate)	75 mcg	167%
Taurine	200 mg	†
Lemon Bioflavonoids (50% bioflavonoids)	175 mg	†
Green Tea Leaf Extract (65% epigallocatechin gallate)	50 mg	†
Quercetin (as quercetin dihydrate)	50 mg	†
Ginkgo Leaf Extract (24% ginkgo flavone glycosides)	40 mg	†
Grape (<i>Vitis vinifera</i>) Seed Extract (95% proanthocyanidins)	30 mg	†
Turmeric Rhizome Extract (95% curcuminoids)	25 mg	†
Alpha Lipoic Acid	20 mg	†
VitaBerry® Organic Fruit Blend** (Includes All Organic: Strawberry, Raspberry, Blueberry, Tart Cherry, Elderberry & Cranberry)	20 mg	†
Bilberry Fruit Extract (standardized to anthocyanidins)	30 mg	†
Pomegranate Fruit Extract (30% punicalagins)	15 mg	†
Lutein (FloraGLO®)	10 mg	†
Zeaxanthin (from OPTISHARP® and FloraGLO® Lutein)	2 mg	†
Boron (from protein hydrolysate)	2 mg	†
Lycopene	2 mg	†
Trans-Resveratrol (from <i>Polygonum cuspidatum</i> root extract)	2.5 mg	†
Vanadium (from vanadium amino acid chelate)	20 mcg	†
Carotenoids Proprietary Blend (alpha-carotene and cryptoxanthin)	17 mcg	†

† Daily Value not established.
Other Ingredients: Kosher Bovine Gelatin, Water, Magnesium Stearate and Silica.

ABOUT OCULARPROTECT

- Robust multivitamin featuring optimal levels of over 40 key nutrients to support the eyes and the whole body
- Includes a powerful combination of antioxidants, protective flavonoids and a team of potent cell-protecting nutrients
- Provides 10 mg of FloraGLO® lutein and 2 mg of zeaxanthin for enhanced visual health support
- Based on the latest scientific research
- Formulated by doctors and nutritional scientists
- Manufactured in NSF®-certified facilities from the finest quality, bioavailable ingredients
- 30 day money-back guarantee

OcularProtect is available from eye care practitioners or directly from ScienceBased Health.

Comprehensive Support for Visual and Whole Body Wellness

OcularProtect is a robust, scientifically-based multinutrient designed to support visual and whole body health. This comprehensive formula of over 40 essential vitamins, minerals and other key nutrients features a balanced combination of antioxidants, including: vitamins C and E, flavonoids, 10 mg of FloraGLO® lutein, and 2 mg zeaxanthin. OcularProtect is made from premium ingredients encapsulated in powder form for maximum bioavailability.

Nutrition and Your Health

Most experts now recommend a daily multivitamin for all adults. While proper supplementation can help maintain good health, choosing the right one can be challenging. OcularProtect is a premium quality doctor-recommended supplement that provides the nutrients your body needs to perform at its best.

Powerful Combination of Antioxidants

Free radicals are created during the daily process of converting food to energy, by pollutants in the air we breathe and by ultraviolet rays in the light around us. In fact, cumulative photo-oxidative damage is believed to play a role in clouding the lens of the eye and damaging the macula, which is located in the center of the retina.

OcularProtect provides a formidable team of free-radical fighting antioxidants: Vitamins C, E and lipoic acid to neutralize free radicals, as well as copper, zinc and selenium to help enzymes deactivate them. It delivers a broad spectrum of natural source vitamin E, from alpha to gamma, that work to help keep cells healthy, and ample amounts of flavonoids, which are the most abundant antioxidants in the diet.

Important Cell-Protecting Nutrients

Research indicates that plant compounds with antioxidant activity contribute to the health benefits of eating five or more fruit and vegetable servings daily. Nutrients with cell-protecting properties from grape seeds, bilberry, citrus, *Ginkgo biloba*, green tea, trans-resveratrol, pomegranate and a unique berry blend add strength to the OcularProtect team.

Substantial Amounts of Key Carotenoids

OcularProtect supplies meaningful levels of five key carotenoids with potent antioxidant activity: alpha and beta-carotene, lycopene, lutein and zeaxanthin. The "carotenes" serve as antioxidants, or a source of vitamin A when the body requires more. Evidence also indicates that the carotenoids contribute to normal skin, cardiovascular and ocular health.

Plentiful in green leafy vegetables, lutein and zeaxanthin are concentrated in the eye's lens and macula of the eye. Along with vitamins A, C and E, lutein and zeaxanthin are among the few nutrients found in the lens. In the macula, these two yellow pigments work to filter out blue light, which is believed to cause photo-oxidative damage.

Population health studies indicate that consuming a diet rich in lutein and zeaxanthin may help protect our vision as we grow older. Emerging evidence also suggests that more robust levels of these two carotenoids may be important for those with risk factors for age-related macular degeneration such as a family history of the condition.
